

Exercises 1.1-1.2

EXERCISE 1.1: GETTING STARTED

```
PS C:\Users\iamed> docker ps -a
CONTAINER ID   IMAGE     COMMAND                  CREATED        STATUS              PORTS          NAMES
a9ca64b8ac02   nginx    "/docker-entrypoint...." 28 seconds ago Exited (0) 2 seconds ago          kind_saha
7d4f70945a21   nginx    "/docker-entrypoint...." 45 seconds ago Exited (0) 2 seconds ago          kind_mclaren
45135e2a28f3   nginx    "/docker-entrypoint...." 47 seconds ago Up 46 seconds      80/tcp         ecstatic_borg
PS C:\Users\iamed> docker image ls
REPOSITORY    TAG       IMAGE ID       CREATED        SIZE
nginx         latest    92b11f67642b   5 weeks ago    187MB
```

EXERCISE 1.2: CLEANUP

Clean the Docker daemon by removing all images and containers.

```
PS C:\Users\iamed> docker ps -a
CONTAINER ID   IMAGE     COMMAND                  CREATED        STATUS        PORTS          NAMES
PS C:\Users\iamed> docker image ls
REPOSITORY    TAG       IMAGE ID       CREATED        SIZE
PS C:\Users\iamed> |
```
